Hungry4food.com

Be A Partner With Us
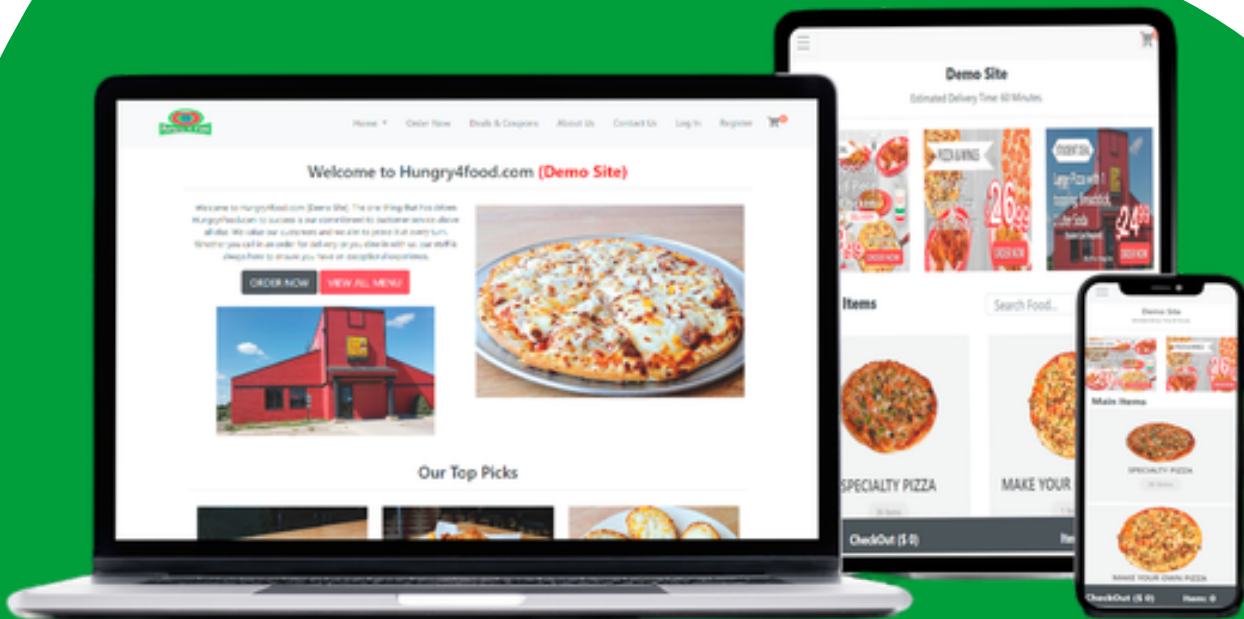

Hungry 4 Food

From creating your own personalized website to establishing your digital presence, we are here to help you to grow your online sales. We support over 100+ restaurants across the United States.

About Us

Hungry4food.com is a subsidiary of Noble Idea Solution LLC. Noble Idea Solution has been in the business of software development and IT services since 2006. We are creating a variety of software, applications, and websites to help small businesses with their workload. We collaborate with small company partners to save them time and money by designing and implementing the finest technology services solution for their needs. We currently provide a NicePOS product. NicePOS is focused on providing complete, integrated retail solutions that improve brand equity, maximize customer value, and provide a competitive advantage, based on an in-depth understanding of the industry and strong customer connections.

After 2015, we launched Hungry4food.com to provide restaurants an online food ordering websites and build their online presence in the digital world. The motive is to help increase their online order sales through the website, provide full support to make their presence in the online space, through best strategies of SEO, Marketing Plan, Social Media Marketing, Email, and SMS Marketing. We also provide maintenance and support to ensure the smooth functioning of the websites. We have more than 15 years of experience in this industry and provide more than 100+ restaurants in the US.

1.Hungry4food.com for Individual Website

Hungry4food.com believes that each and every restaurant must have its own online services. Hence, we create a website for the restaurants on their own branding. This website will be completely functional and the whole ordering process will happen on the website only. The mission behind this is to help you from paying that extra money to the companies that provide these services at a very high cost.

1.1 Online food ordering website for your customers

You can start your own Branding Website at zero cost. We provide you with a fully functional website for your customers so that they can order your food from your website only. Along with the website, we provide you with an admin panel and an android app that helps you to track your online orders. We will send you updates about online orders placed on your website. We can send you alerts through a phone call, email, print, or fax, depending on your preferences. To your knowledge, this would cost you $1000, if you hire other companies to do this, but we provide it to you for free.

Q & A

Q. Who has to pay the 5% charge (Customer or Restaurant owner)?

Restaurant owners have to pay this 5% fee for using our services but in general, we have seen that in the case where customers pay through credit card, the 5% charge is covered by the tips they provide. So, it's almost a no-cost service.

Q. How do restaurants get the order notifications?

You can get the order by phone, email, printing (if you have a computer and printer), Android app, and last option Fax

Q. How many markets do you cover?

We provide almost 100+ Restaurants in the US.

Q. How much time will it take to make a website?

It will take 7 to 10 days if you have sent us the full information about the restaurant.
